PEACE LEAGUE HAS SPLIT OVER WORLD LEAGUE

Capper and Others Oppose the Plan of President.

BY A STAFF CORRESPONDENT. Washington, D. C., March 17 .- [Special.]—The League to Enforce Peace is having difficulty in enforcing peace in its own ranks, it came to light today. Sharp dissension has broken out among officials and members over the projected league of nations.

William Howard Taft, president of the League to Enforce Peace, has joined President Wilson in a nation wide campaign to obtain the American people's indorsement of the pro posed covenant. Mr. Taft's stand has been seconded by A. Big Majority of Men in Twelfth Division Back Preparedness.

Washington, D. C., March 17 .- Over training for preparedness system, coupled with equally strong support for the existing disciplinary relation-ship between officers and men of the army, was expressed by a representative group of the selective service men of the Twelfth division, Camp Devens, Mass., just before the organization was demobilized last January.

The opinions of the men, numbering

1,330, with an average length of service of 10.7 months, were obtained through a carefully arranged questionnaire sys tem, with every safeguard provided to insure absolutely free expression of opinion and with such distribution in the division as to make the answers representative. American Bankers Again **Enter Consortium to** Finance China.

J. B. Powell, editor of Millard's Review of Shanghai, at the request of The Tribune," has made an exhaustve study of the political and economic ionditions of China and the problems confronting the United States, Japan, ind the great powers of Europe as result of the war. Unless these probems are approached with a spirit of 'air dealing and China allowed to develop as an independent nation, without loss of national sovereignty, he velleves it means the sowing of seed or great future wars.

TOUL, March 17 .- Looking back over four years of Thompson rule, Carter H. Harrison condemns the present mayor of Chicago as an unqualified failure. Capt. Harrison has known "Bill" Thompson for years and has known what his associates thought of him. Further information has come to the former mayor of Chicago from conscientious city employes who have known exactly what the present administration was doing the last four years.

This is the second of a series of articles on the political situation in Chicago. The next installment will deal with County Clerk Sweitzer. The fourth and last will discuss the candidacy of State's Attorney Hoyne. PARKE BROWN.

MAKE OLD SHOES **WEAR LIKE NEW**

"I had Neolin Soles put on my shoes—wore these shoes every day for fifteen months, then had Neolin halfsoles put on. They are still in good condition," writes F. T. Evans, of Seattle, Washington. This is cutting shoe bills down to the minimum through Neolin Soles. Anyone can do this if he will follow Mr. Evans' example, and have his shoes re-bottomed with Neolin Soles. These tough, durable soles cost no more than soles that give only ordinary wear. And all good repair shops have them.

And all good repair shops have them.

Neolin Soles come on new shoes, too—in many styles for men, women and children. They are created by Science to be all that soles should be—comfortable and waterproof, as well as long-wearing. They are made by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear any other heels.

CLERICAL GROUP

PLEDGES ITSELF TO HELP MAYOR

Ministers Pass Resolution Saying City Needs Thompson.

BY THE REV. W. B. NORTON. An unofficial group of ministers, sur plemented by a group of city hall followers, met yesterday afternoon at the First Methodist Episcopal church, Clark and Washington streets, to listen to Dr. John Dill Robertson and Mayor William Hale Thompson. Following the addresses the audience passed the following resolution:

"In view of the present political alignment it is the belief of this representative meeting of ministers that the social and moral values for which we stand are bound up in and would be conserved by the reëlection of William Hale Thompson as mayor, and to that end we pledge him our support." Many Fail to Vote.

The resolution was introduced by the Rev. M. P. Boynton. Bishop Samuel Fallows was in the chair, and declared Many present did not vote, and at least one minister, the Rev. I. E. Advertising is chief hand-maiden to ambition. And men who are proud of their products are ambitious for their wide dissemination and use.

Without advertising, any surprisingly better com-modity will gradually win a following through word-of-mouth recommendation. This may take years to accomplish.

The same result is brought about in a fraction of the time and therefore at a fraction of the cost by general advertising.

It is a phenomenon of today that a new mode is adopted simultaneously in Charleston, in Seattle, in San Bernardino and in Bangor, Maine.

The old days of long cycle between the metropolitan usage and ultimate rural adoption are past.

Our whole country adopts its new ideas today, together and at the same time.

For national adoption, advertise. It saves time.

Will you gamble away your teeth?

The prevalence of "Acid-Mouth" (dental authorities believe that it is the chief cause of all tooth decay) indicates that it is not enough merely to clean the teeth.

Pebeco Tooth Paste does clean exceptionally well and polishes, too. But it does a great deal more. It counteracts "Acid-Mouth" - that remorseless condition which gradually weakens the enamel and paves the way for the ultimate destruction of each tooth.

It receives messages from nerves in various regions of the body, but being unable to reason, it often acts blindly, imperfectly, or improperly. It may stop secretion, lessen muscular action—and the result is constipation.

Castor oil, pills, salts, mineral waters, etc., do not reason with the abdominal brain, they force it to temporary action, to unnatural effort, until the bowels move. But this is followed by a sulky attitude or even a "strike" by your other brain, and the constipation is increased not cured.

by constipation.

But Nujol acts differently. Nujol is not a drug, does not act like any drug.

Nujol acts mechanically to coax the bowels to move easily and thoroughly at regular intervals.

Nujol supplies necessary moisture to bowel contents, makes it easier for tired intestinal muscles to act. absorbs poisonous matter, over-comes stagnation and by so doing persuades the abdominal brain to act rationally and efficiently. AT THE BILLIARD ROOMS. It seems to be the correct thing for players in the Chicago Billiard league to go at top speed against Augie Kleckhefer, and Peter Rogers ran true to this form at Bensinger's Randolph room last night, defeating the former champion, 45 to 29, in forty-three innings. Rogers ran 10, the seofad highest mark of the year. mark of the year.

Two games are scheduled tonight in the Chicago league, Capron playing Le Groe at the Carino and Scanlan of Milwaukee playing Mannassau at Hub Hart's.

By Mae Tinée.

Little Mary Pickford started some thing when she tossed her curls, kicked up her heels, and registered petulance for the first time. In her wake now come trailing a horde—there is no other word-of curly-locked, petulant, toeing-in damsels well under 5 feet, who never manage to "strike twelve," however hard they try.

Mae Murray is one of them. She, too kicks up her heels. She, too, too es symmetrical curls, dries melting eyes on the hem of her organdie frock, and does the dozen and one tricks that remind one vaguely, O, vaguely, of Little Mary Rebecca of Sunnybrook Farm," and

And because she fails to ring the bell we writhe and groan, and sit through six reels or so of maryjay holmes stuff, hoping that the comedy to follow will justify our rash expenditure of 20 cents or so.

By the way, lest the last paragraph mislead you, let me say that "The Scarlet Shadow" essays to be comedy itself. You'd never suspect it from the lurid posters outside, and (whisper it) you'll hae your doots when it's ended.

The plot? Well, Mae Murray, in all too brief flapper frocks, driven from home by an impossible maiden aunt, refuses to wed a plump millionaire plications, marries the noble and elder

NEWS ABOUT MUSIC

Mary Jordan, a contralto, sang yesterday for the first time in Chicago she was third and last of the season's importations by the Musicians Club of Women, which gave to the newcomer an audience of good size in the Illinois theater. Miss Jordan was decorous and decorative, observed the contraltos' tradition of sturdy stateliness, and sang with musical intelligence, with refinement, and with a great deal of caution through a varied program of modern matter. Her voice was not big, was not rich, and was not notable; and it was well-bred though it became monotonous as the afternoon went to its end, agreeable. Her bill favored the writings of H. T. Burleigh; two of his songs, dedicated to her, and three transcriptions of jubilee hymns were in it; and, at the end, she added "Deep River." A piquant item was John Carpenter's Wull Ye Come in Early Spring?" with the verse in Dorset dialect. Isaac Van Grove was Miss Jordan's good ac-

Net Out to Recover All the Money Paid In for Stock.

A dragnet for missing funds of the Consumers' Packing company was thrown out yesterday and the corps of attorneys who will handle it were given a week in which to report.

The first result came from Attorney Charles Erbstein, counsel for Edward F. Ader, held under \$30,000 bonds, who found thirty \$1,000 bills and \$384 in other denominations his client held in a heretofore unrevealed account at the Northern Trust company.

Coincident with the spreading of the net to find where the \$801,000 paid in by stock buyers had gone, it was reported that several of those held by Judge Landis had made tentative offers to make confessions. One rethose under bonds, had made "a com plete statement" regarding the almisappropriations against the company's officers and directors. It was said Messing had made a nine hour confession to David D. Stansbury, who until yesterday rep esented the receiver in the case.

"No Confession," Says Counsel.

"Mr. Messing did come to my home late one night a while back and give some information, but it was nothing more than we already had," Mr. Stansbury said last night. "I did not con-sider it a confession."

K. B. Czarnecki, a lawyer who was nly recently reinstated after being disbarred, joined the "in bad" club in Judge Landis' court. Recently the court ruled that all attorneys having taken fees in the case should return them. Czarnecki had received \$150. tion to quash, which was promptly denied. He then announced an ap-

So I took the stock." An order was sent to all police stations yesterday to arrest any one with thirteen barrels of whisky in his possession.

The money Ader turned over yesterday was held in a bank account in the name of "Edward J. Ader or Fanny Ader," the latter his mother. This money brought the total Ader has turned over up to \$51,384, in addition to a \$25,000 surety bond.

The French have a private and different explanation, which bares a grievance against the British. They believe that Great Britain will refuse to grant further credit to France and that the British are large sellers of francs in America on this account. The financial editor of Journal des Debats of Paris says: "If the British government considers that it no longer is possible to accord France direct advances nor extend equivalent resources in some other form France will be obliged to purchase elsewhere in countries which are prepared to open credits for her. which are prepared to open credits for her notably the United States, which can supply everything now received from England, even

The federal trade commission, under its weeping powers is about to undertake a campaign to prevent fraud against holders of liberty bonds by those who are asking them to exchange the government issues for securities of doubtful value but with attractive ities of doubtful value but with attractive sounding names and prospectively high returns. The commission has at its command a list of all dealers in Liberty bonds, this having been furnished through Liberty bonds committees and similar organizations. It is the plan of the commission to send out questionnaires to all independent dealers in Liberty bonds, and if the returns are not satisfactory drastic action will be taken. The commission has broad powers, and, it is believed, could prevent any further transactions by those persons who did not give satisfactory explanation.

COPPER STOCKS RISE IS FEATURE OF DAY'S MARKET

Industrials Furnish Major Part of Million Share

Turnover.

The New Hork Times.

New York, March 17 .- [Special.]-The stock market continued today to snow the same general character which marked dealings last week. which marked dealings last week.

The major part of the turnover, in 15 excess, of a million shares, was again supplied by transactions in particular groups of industrial stocks, which

gained considerable ground. While oil, tobacco, and automobile stocks and certain of the chemical and manufacturing issues were reaching to-ward new high levels for the movement, the steel and railroad shares, acted slugrishly and in general left off with small

The really pronounced feature of the on was the improved demand for 8 copper stocks, whose advances extending from a good sized fraction to more than point appeared almost to have been llitated by the annual statement of the American Smelting and Refining ompany. This report showed clearly enough that sales and profits in 1918 were far less satisfactory than the year before, but it indicated also that some of the adverse conditions affecting the industry had been expressed at what 12 may prove to be their lowest depths for

All information goes to show that the copper companies are doing very little business and are seeing their stocks of metal added to every day, still the impression is to be gathered from comment heard in the industry that costs will tend to decline as time passes, and it stands to reason that the world will some day The day's news contained a few items

Among tensive speculative demand at the close of last week a steady output of realizing sales was in evidence, but the reactions noted among them were overshadowed for the most part by the plunging advances of others.

Sinclair Oil and Sinclair Gulf were conspicuous in yesterday's trading. Neither stock has heretofore enjoyed an advance pro-pertionate to that which has obtained in some of the other oil issues. Sinclair, which closed on Saturday at 39%, opened at 41 and rose to 44%. There was some evidence of pool operations. Sinclair Gulf moved sympathetically with the former stock. The railroad shares attracted little attention. The price changes were fractional.

The motor group came in for a great deal of activity and willys-Overland gained over 2 points. Studebaker, General Motors, and Maxwell issues were active, but did not show met changes of consequence.

A Great Service at Little Cost

No other form of insurance affords so great a service for so small a premium as does American Credit Insurance.

The American's Unlimited Policy provides absolute protection against excessive credit losses. It does more; it serves to prevent losses. It also offers the privilege of adjustment and advancement of money during the currency of the policy if covered excessive losses are sustained.

The Curtis Publishing Co., owners of the Saturday Evening Post, Ladies' Home Journal and Country Gentleman, to whom we recently paid a loss of \$18,908.49, write: "The whole transaction has been handled in such a courteous, prompt and thoroughly satisfactory way that we feel you should know how much we appresisted it."

M. H. Rogers, Manufacturer, 912-920 Broadway, New York City, writes in acknowledg-ment of payment of \$3,838.68: "I have carried your bond for a long term of years. This is the first time I have had occasion to call on you for any excess loss, and in this case the excess was caused by the failure of one of my well-rated and highly-valued customers. The adjustment was made promptly and to my

FRANK FR

Mr. William H. Taft

former President of the United States, is a regular editorial writer on the Public Ledger, who for more than a year has delighted and surprised his friends by an unsuspected ability as a writer of great force and clear vision.

"Playing Politics on the Edge of Hell"—

An editorial in the Montreal Star by A. R. Carman some years ago made history in Canada. One effect was an attempt to blow up the house of Lord Athelstan, the proprietor of the Star.

Mr. A. R. Carman

is an unusual leader editorial writer, who can write strong and forceful English in good English—a very rare accomplishment. For more than a year he has been a leader editorial writer on the Public Ledger.

The Public Ledger is more widely quoted than any other American newspaper, and absolutely dominates Metropolitan Philadelphia, with its five million people, by its strength of editorial and news service.

200,000 copies daily (morning and evening editions)—an enormous circulation for its extremely high grade—sell purely on their value, using no forcing methods such as premiums, contests, cut rates or free copies.
